

**AMBER TEX**

*High tech natural material*

**LINAS**  
*PRESENTATION*

There is no better designer than nature – seasons are dictating trends and mood. To involve nature in the production was our ambition for a long time and there was no better material than amber, which represents our Baltic traditions in the unique way. Therefore these natural amber yarns, as a result of fusion of science and high tech, mixed with linen flax is the biggest proud of Baltic countries that can be worn.

Fabrics with amber yarns are characterized as extra soft and flexible therefore is a perfect choice for clothing or home textile. Can be made in many possible color or weight variations to fill in every collection with special authentic Baltic aura.

**Benefits** choosing AMBER TEX fabrics for your collection:

- ☑ Fabrics with amber fiber are unique – no one has ever synthesized amber before;
- ☑ Can be used for many possible items – bedding, curtains, garments, etc.;
- ☑ In contact with human body it has antioxidant effect, that prevents the development of various skin diseases and contributes to wound and burn heal;
- ☑ Together with linen, amber creates a relaxing and calming effect, a decrease of insomnia syndrome;
- ☑ Material with amber fibers protects against the electromagnetic field created by home electrical appliances;
- ☑ Can be offered in full palette of fashionable colors, patters and textures designed to coordinate easily with your décor or collection;
- ☑ Clinically proven – fabrics with incorporated amber fiber has 20% better protection against UV;
- ☑ These fabrics are suitable for Oeko-tex Standard 100, having no negative ecological, environmental or dermatological properties;
