

CARE TEX

skin care & cooling effect

LINAS
PRESENTATION

Clothes touch our skin all day long, bedding and bed-clothes touch our skin during all night. We need to choose them carefully because it affects our health, mood and well-being. Linen is ecological, anti-allergic, protecting from UV by itself, but in order to offer our clients more efficient skin care solution, our specialists added additional value to it – special CARE TEX finish.

Fabrics with CARE TEX finish are enriched with aloe vera gel, jojoba oil and vitamin E, which absorbs moisture, has a pleasant effect of calming, gives anti-static effect, protects the skin from aging, cares and moisturizes the skin. So this is perfect option for summer linen clothes, linen bedding or sauna, bath and SPA items.

Benefits choosing CARE TEX finishing for your collection:

- ☑ This finishing is suitable for Oekotex Standard 100, having no negative ecological, environmental or dermatological properties;
- ☑ Available to apply on all our washed readymade items, so any fabric, design or color can be chosen;
- ☑ Creates added value to linen garments and home textile items, making them more healthy to human body;
- ☑ Customers will enjoy spa treatments at home without much efforts and spending much money;
- ☑ Ideal for beach wear, because protects from UV and allows skin to be moisturized and calm after having sun bathes;
- ☑ Aloe Vera is known as having insect repellent properties, so this finish also is perfect for outdoor garments and home textile items;
- ☑ Provides the fabric and readymade items with a soft and silk-like handle, which pleasantly contact with the skin;
- ☑ Added benefits of natural skin caring are continuously transferred to the skin during daily wear or during night sleep.

Care instructions:

-  Machine wash at low temperature, with similar colors. Lasts up to 10-30 washes (Vitamin E washes out first, then aloe, the most resistant – jojoba oil).
-  Do not bleach
-  Do not iron
-  Professional textile care
-  Tumble dry is allowed
