

# WATER-PRO

## Water Repellent Coating

LINAS

PRESENTATION

Water, grease repellent coating is colorless and has water and stain protection properties. It does not allow water, dirt, coffee, red wine, etc. absorb into the fabric. So using our Water-Pro coated tablecloths you will not need to worry about spills or splatters and you'll enjoy stress-free dinners, parties and of course child activities. Accidental spills can be easily wiped in seconds.

In business sector Water-Pro is ideal for trade shows serving refreshments, sampling, wine tasting, restaurants, promotions and outdoor events.

### Benefits using water-pro coated fabric:

- ☑ Saves water and energy by minimizing laundry;
- ☑ Takes care of environment by reducing quantity of waste with the use of disposable (wasteful) paper tablecloths;
- ☑ No stress - wipe away spills and splatters in seconds;
- ☑ Protects furniture as the water and oil repellent fabric stops spillages from seeping through to your table;
- ☑ Luxurious look, natural linen in any design or color;
- ☑ No need to iron, as wrinkles are not formed.

### Intended use:

- ☑ Soft – for table linen (tablecloths, runners, napkins, placemats, coasters);
- ☑ Medium stiffness – for accessories (handbags, cosmetic bags, tote bags, holsters, satchels);
- ☑ Super soft – for outwear garments, raincoats, shower curtains, baby bibs etc.

### Care instructions:

-  Clean the stain immediately. If the stain disappears then washing is unhurried, if the stain remains we recommend to wash item during the day.
-  Wash resistance up to 10 washings at 40°C
-  Iron only if needed on the backside of the item
-  Do not tumble dry
